

Open the school website – <https://wheaton.k12.mn.us>

Open Staff Links, select Mosyle and click on the Mosyle Install Link
Click on Start Enrollment.

Open your Downloads and select the mobileconfig file.

It will have a bunch of letters and #'s in front of .mobileconfig

Click the Install button in the next box that opens

You will need to enter your password to start the installation

You will then see a screen that lists everything that was installed.

Congrats! You have installed the Mosyle Client.

You can close out of anything that you opened in this process.
